## Automation Division

---

What can **IEM**'s Automation group do for you?

**IEM** Engineering can show you how to get the best performance out of monitoring software or implement a control program that will remove operator error and provide your facility with a near hands free process.

Need to avoid delays on your project?

**IEM**'s Automation group has years of experience that will help you to avoid the pitfalls that result in project timeline failures and lost uptime after project completion.

Need a diverse background to help on your project?

When you need service from a person who has been on the factory floor in engineering and maintenance, **IEM** can help.

### HOW DO YOU ACHIEVE AUTOMATION S-U-C-C-E-S-S?

- #1 Let a company with fantastic staff diversity lead you to success.
- #2 No proprietary work, programming, or skills knowledge remains hidden with us.
- #3 You own all the software and there are no hidden passwords and we share our knowledge.
- #4 **IEM** service engineers have managed many different projects involving building, mechanical, electrical, and automation trades and we stay all the way; fabrication, installation, start-up, and commissioning.

**Our success is your success and full knowledge transfer from our skilled workforce is made to your staff.**

Look to **IEM** for the total, single-source solution.

Do you need a complete turnkey program?

**IEM** specializes in the design of automation equipment, fabrication, integration of complex components, installation and start up of simple and complex systems.

**IEM** has an experienced staff to design and fabricate custom control panels and make upgrades to existing equipment.

**IEM** is an A-B OEM.
